What are the three aspects of this lecture that you liked most (TOPS)?

The slides, teacher's enthusiasm, balance of math and economic interpretation

- repetition of the bottom lines
- links to practical aspects and recent research

- slides of explanations
- way of explanations

How the professor explain
The motivation that he give us

REALLY GOOD EXAMPLES TO EXPLAIN THE PROBLEMS
PROFESSOR MOTIVATES STUDENTS

well structured paper
highly motivated lecturer
real gain from visiting the lectures

1) the lecturer is very motivated, open-minded and willing to help
2) the presentations are very good structured and understandable

Examples help to understand the material covered;
lecturer refers to topics that have already been discussed, important issues are
[illegible]

- Motivation of lectures - Clear structure of the script.

Prof. Harms speaks very clearly
learned a lot by attending the course.

- The professor is very encouraging.
- The structure of the lectures is clear and understandable.
- Detailed examples.

LECTURER ; EXAMPLES ; ABILITY TO EXPLAIN IN INTERESTING AND UNDERSTANDABLE (MANNER) WAY

- complicated formulas/expressions were always explained step by step so lecture notes were always comprehensive when reviewing them

The subject itself, the explanaitions, the pace of lectures

- Very clear explanaition
- Professor is high-motivated, always well-prepared and he motivated students to study.
- I have known a lot from this lectures.

Prof Harms is one of the most kind and strong responsible person I have ever met, He is very patient. His slides are very logical and he spent a lot of time explaining some unimportant part to us during the lect It's very helpful

I guess there were not enough of practical exirsizes in order to follow the lecturer.

① Professor
② Friendly Behavior
③ Well Prepaid Lecture

Mix of powerpoint and blackboard / additional notes
good structure
Very good presentation - good to understand (pronunciation...)

What are the three aspects of this lecture that you disliked most (FLOPS)?

- ~~I feel~~ the lecture mostly ~~talking~~ talks about math

- sometimes to theoretical (mathematical tutorial -) didn't take away anything from it (which doesn't mean that Jacob did a bad job ...)

This course somehow is advanced lecture above the International Trade but as for some one ~~for~~ undergrate in business or whatever else. It's too hard for them to understand. I hope tutorial can a little bit harder on establishing the basic foundation knowledge

The tutorial presented by students as we might miss some important knowledge.

-

-Group-work -> nice idea but took too long time during the tutorial

-The lecturer is always well prepared and present all stuff very clear. He always motivate students to ask any questions which relate to the subject.

interaction with tutorial (Sometimes confusing)

time (§30)

① Early Morning Time
②

too much mathmatics & too less economical interpretation.
topics are relatively few.

/

Group presentations in the tutorial should be graded in order for every group member to participate!

Perfect lecturer, quite nice person. He is open-minded teacher and supportive student very well.

Too theoretical
less practical application in Int. trade.
